# INTRODUCTION

MICROLOG is an index and document delivery system providing access to current Canadian report literature of reference value from government and institutional sources.

The MICROLOG Index is a monthly publication providing citations to all reports located by our editorial staff.

The document delivery service supplies most of these documents to subscribers on either microfiche or paper. Titles available on fiche are indicated in the Index with a document accession number in the lower right hand corner of the citation in the Main Entry Section. Where xerographic paper copy is available the symbol '†' appears under the citation.

## PUBLICATIONS INCLUDED

MICROLOG includes Canadian federal, provincial and local government publications. Also included are publications of non-government research institutions, professional associations and special interest groups.

The primary criterion for inclusion is reference value; thus research papers and studies are cited, while news releases and general information pieces are not. Annual reports, statistical reviews and financial statements are the only serials appearing in the Index.

## MICROFICHE SUBSCRIPTIONS AVAILABLE

Documents from MICROLOG are available on microfiche under various subscription plans, ranging from the complete collection through subsets by level of government, geographic area or subject. The subsets available are listed in the Microfiche Collections section of the index.

## CATALOGUING

Full AACR2 cataloguing, including subject headings, is available on cards or MARC tapes, or through an UTLAS file sharing agreement for each document in MICROLOG. Details are available from the publisher. UTLAS record numbers are provided at the end of each entry.

## USING THE MICROLOG INDEX

The MICROLOG Index is divided into four parts: Main Entry Section, Subject Section, Title Section and Microfiche Collections. The Index contains both English and French entries.

## MAIN ENTRY SECTION

This section lists all publications by main entry according to AACR2 rules. Added entries for individual and corporate authors and series are included, as are cross-references from variant forms of names. Each main entry in the MICROLOG Index is computer-assigned a unique four-digit reference number. This is used to refer the user to the complete Main Entry citation from the Title and Subject Sections and serves no other function.

## SUBJECT SECTION

All documents cited in the Main Entry Section are analysed in the Subject Section. Items are listed under subjects by title, and authors are

noted in parentheses. In addition, the reference number of the complete citation in the Main Entry Section is included.

During the 1979 volume year, a number of periodicals in the field of urban affairs were indexed in the Subject Section. While this practice has now been discontinued, selected periodical articles are cited in this cumulation.

## TITLE SECTION

As a further point of access most documents are listed by title. Documents not having easily identifiable or unique titles (e.g. annual reports) do not appear. As in the Subject Section, the reference number of the Main Entry citation is included.

## MICROFICHE COLLECTIONS

This section provides listings by fiche accession number and short-title for all documents in each microfiche collection.

MICROLOG est un index et un système de livraison de documents donnant accès aux rapports canadiens courants, provenant de sources gouvernementales et institutionnelles, et ayant une valeur en tant que référence.

L'index MICROLOG est une publication mensuelle mentionnant tous les rapports trouvés par notre personnel de rédaction.

Le service de livraison de documents fournit aux abonnés un grand nombre de ces documents sur microfiche et sur papier. Les titres disponibles sur microfiche sont indiqués dans l'index grâce à un numéro d'entrée de document qui se trouve dans le coin droit inférieur de l'entrée de la section des inscriptions principales. Si une copie xérogaphique sur papier est disponible, le symbole '†' figure au dessous de l'entrée.

## PUBLICATIONS TRAITEES

MICROLOG inclut les publications du gouvernement fédéral canadien, des gouvernements provinciaux et des administrations municipales. Il traite également les publications des institutions de recherche non-gouvernementales, des associations professionnelles et des groupes d'intérêt particulier.

Le critère principal de l'inclusion est la valeur en tant que référence; ainsi, les articles et les études de recherche y figurent, tandis que les communiqués et la documentation d'intérêt général n'y figurent pas. Les rapports annuels, les périodiques de statistiques et les états financiers sont les seules publications périodiques qui figurent dans l'index.

## ABONNEMENT AUX MICROFICHES DISPONIBLE

Les documents de MICROLOG sont disponibles sur microfiche, et ceci, selon de divers programmes d'abonnement, depuis l'abonnement à la collection complète jusqu'aux abonnements partiels par gouvernement, par

région géographique et par matière. Toutes les collections disponibles figurent sur la section Collections de microfiche de l'index.

## CATALOGAGE

Le catalogage RCAA2 complet, vedettes-matière comprises, pour chaque document dans MICROLOG, est disponible sur fiche, sur bandes de MARC et par un accord de partage de fichier avec UTLAS. Les détails sont disponibles par l'entremise de l'éditeur. Les numéros d'entrée d'UTLAS figurent à la fin de chaque entrée.

## UTILISATION DE L'INDEX MICROLOG

L'index MICROLOG se divise en quatre parties, la Section des inscriptions principales, la Section des matières, la Section des titres et Collections de microfiche. L'index est en anglais et français.

## SECTION DES INSCRIPTIONS PRINCIPALES

Cette section énumère toutes les publications par entrée principale, selon les règles de RCAA2. Elle comprend des entrées supplémentaires pour les auteurs particuliers, les auteurs collectivités et les séries ainsi que les renvois réciproques de noms variants. Chaque inscription principale de l'index MICROLOG est doté d'un numéro de document unique à quatre chiffres, que lui attribue l'ordinateur. Ceci offre à l'utilisateur l'accès de la section des matières et de la section des titres à l'entrée complète trouvée dans la section des inscriptions principales; il ne sert à aucune autre fonction.

## SECTION DES MATIERES

Tous les documents traités dans la section des inscriptions principales sont analysés dans la section des matières. Les items se classent selon les matières et par titre; les auteurs sont mentionnés entre parenthèses. En outre, y figure le numéro de référence de l'entrée complète qui se trouve dans la section des inscriptions principales.

Pendant 1979, dans le 1er volume, un certain nombre de périodiques dans le domaine des affaires urbaines ont figuré à l'index des matières. Bien que ce service ne fasse plus parti de l'index, quelques articles figurent dans cette cumulation.

## SECTION DES TITRES

Afin d'être plus accessible, la plupart des documents se présentent par titre et par ordre alphabétique. Ceux qui n'ont pas de titre facile à identifier ou particulier (par exemple, les rapports annuels) ne figurent pas dans cette section. De même que dans la section des matières, le numéro de référence de l'entrée des inscriptions principales est mentionné.

## COLLECTIONS DE MICROFICHE

Cette section fournit les listes de tous les documents offerts dans le cadre des divers programmes d'abonnement disponibles par numéros d'entrée et titres des documents.

- The 1977 spruce budworm situation in Ontario (G.M. Howse and A.A. Harnden.) 1539
- Ambrosia beetle : a menace to the forest industry (W.W. Nijholt.) 2156
- Ambrosia beetles have expensive tastes. (by J. Dobie.) 1156
- Annotated check list of forest insects and diseases of the Yukon Territory (by David Evans, Daphyne P. Lowe and Richard S. Hunt.) 1270
- The black army cutworm (*Actebia fennica* (Tauscher)) in British Columbia (D.A. Ross and S. Iinytzky.) 2906
- The boxelder bug. (R.O. Wood.) 3542
- Common insect and mite galls of the Canadian Prairies (by H.R. Wong, J.C.E. Melvin, and A.M. Harper.) 3538
- Economic feasibility of controlling the current spruce budworm outbreak in Quebec. (by Jean-Paul Nadeau.) 2040
- The effect of balsam woolly aphid attack on the development of young balsam fir stands. I, Methods and plot description. (by H.O. Schooley.) 3040
- Effects of road salt on eastern white cedar (*Thuja occidentalis* L.) (A.C. Foster, M.A. Maun and D.P. Webb.) 1346
- Forest insect and disease conditions : Cariboo Forest District, British Columbia, 1977. (Canada. Pacific Forest Research Centre.) 1335
- Forest insect and disease conditions : Kamloops Forest District, British Columbia, 1977. (Canada. Pacific Forest Research Centre.) 1336
- Forest insect and disease conditions : Nelson Forest District, British Columbia, 1977. (Canada. Pacific Forest Research Centre.) 1337
- Forest insect and disease conditions : Prince George Forest District, British Columbia, 1977. (Canada. Pacific Forest Research Centre.) 1338
- Forest insect and disease conditions : Prince Rupert Forest District, British Columbia, 1977. (Canada. Pacific Forest Research Centre.) 1339
- Forest insect and disease conditions : Vancouver Forest District, British Columbia, 1977. (Canada. Pacific Forest Research Centre.) 1340
- Forest insect and disease conditions : Yukon Territory, 1977. (Canada. Pacific Forest Research Centre.) 1341
- Forest tent caterpillar. (C.S. Wood.) 3541
- Grasshopper damage to pine container seedlings in southeastern Manitoba (by L.D. Nairn and K. Froning.) 2043
- Insects of eastern spruces, fir and hemlock (A.H. Rose and O.H. Lindquist.) 2903
- Melampsora foliage rusts in British Columbia. (by R.S. Hunt.) 1555
- Protection and preservation of wood against attack by fungi. (by Roger S. Smith.) 3132
- Reduction of losses to logs and lumber caused by wood-boring insects (by D. Ostaf and J.K. Shields.) 2415
- Spruce beetle in British Columbia. (by C.B. Cottrell.) 1049
- Stem rusts of pine in Western Canada (Daphyne P. Lowe and Wolf G. Ziller.) 1802
- Timing of insecticide application against spruce budworm (*Choristoneura fumiferana* (Clem.)) in relation to larval development and progressive damage to foliage of balsam fir (*Abies balsamea* (L.) Mill.). (J.R. Blais.) 0333
- Trees and pesticides : an environmental dilemma (editors, Peter Aitchison, J.J. Keleher, & W. Gray.) 3392

### Végétation

### Maladies et pestes

- Insectes des épinettes, du sapin et de la pruche de l'est du Canada (A.H. Rose et O.H. Lindquist.) 2902
- Vegreville (Alta.) 3443
- Vegreville community survey. 3443
- Vehicles see Transportation vehicles
- Vermilion (Alta.) 3445
- Vermilion community survey. 3445
- Victoria (B.C.)
- Fisheries in Greater Victoria : jobs and dollars (prepared for the Ministry of Environment by K. van Westen and Associates.) 1315

 79-2498/6 - Feasibility and environmental assessment of new generating facilities on the lower Musquash River  
 79-2500/1 - Expanded or modified storage and maintenance facilities or yards for commuter bus and rail service  
 79-2501/1 - New commuter rail station or bus terminal with parking facilities for less than 300 automobiles  
 79-2502/2 - Expansion of an existing commuter bus terminal  
 79-2503/1 - Expansion of an existing commuter rail station  
 79-2504/1 - Transit fact book and membership directory 1979.  
 79-2505/3 - Annual financial statement for the year ending December 31, 1978.  
 79-2506/1 - Annual report of the sinking fund trustees for the year ended 31st Dec. 1978.

## 3. SPECIAL COLLECTIONS / COLLECTIONS SPECIALES

### A. Science and technology / Science et technologie

- 79-5000/1 - Treatment, care, and handling of logs and lumber prior to drying  
 79-5001/1 - Wood structure related to drying  
 79-5002/1 - A review of the economic impact of insects on the genus (Populus) in Ontario  
 79-5003/1 - Japanese paperpots for containerized planting of tree seedlings. III, Transportation of seeded paperpots to ...  
 79-5004/1 - Aerial photography of marine mammals using a radio-controlled model aircraft  
 79-5005/1 - Benthic algae in the Thompson River, British Columbia  
 79-5006/1 - Feeding of freshwater fishes in estuarine and coastal waters  
 79-5007/2 - Osmoregulation and water permeability of Arctic marine isopods, (Mesidotea entomon), (M. sibirica) and (M. sabinii)  
 79-5008/1 - National inventory of sources and emissions of selenium (1973)  
 79-5009/3 - Technical, economic and environmental aspects of wet and dry debarking  
 79-5010/1 - Phosphorus removal demonstration studies using lime, alum and ferric chloride at C.F.B. Borden  
 79-5011/1 - Development of an arsenic measurement method on a gold roasting operation  
 79-5012/2 - Observations of seawater temperature and salinity at British Columbia shore stations, 1975  
 79-5013/2 - Oceanographic data report, Amundsen Gulf, August-September 1977  
 79-5014/1 - Implantation de deux parasitoides pour la lutte biologique contre (Fenusa pusilla) (Lep.) au Québec, en 1974 et 1975  
 79-5015/1 - The Swaine jack pine sawfly life system
